BULK STORAGE SHELVING

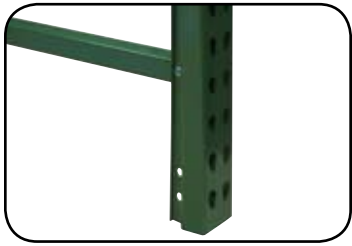

- Bulk storage shelving is the ideal industrial strength hand-stacking storage that saves you time and money
- Units feature a teardrop design that provides quick and easy assembly, as well as the functionality of sharing a common upright between units to create long standing rows of storage space
- Unique design that does not require a shelf at the bottom of the unit and items can be stored directly on the floor
- “Knock-down” design allows for cost saving detachable supports while still providing up to 7,000 lbs. capacity per upright
- Bulk storage shelving can utilize wire mesh or particle board decking

- **Tear Drop Design**
Allows for quick / easy design
- **Built-in Safety Clip**
Secures the beam to upright for added safety
- **Knockdown Upright**
Newly designed heavier duty upright that can be knocked down for easier shipment

STEP LOAD BEAMS

- High capacity beams provide exceptional strength
- Built-in safety lock at the end of beams helps prevent accidental detachment from uprights
- Designed for use with wire mesh or 3/4” particle board decking
- Available in either 2” or 3” beam heights
- Beam length is measured by clear span between uprights

High Quality Products

We only sell quality products from major U.S. suppliers. All of our products are NEW. Beware of on-line retailers who sell used or refurbished shelving and rack.

Low Internet Pricing

Discount Material Handling only markets products on-line, we do not have the high cost of commissioned salespeople or catalog advertising to drive up our costs. We pass these savings on to you!

National Distribution

Unlike other on-line retailers who ship throughout the U.S. from just one distribution point, Discount Material Handling ships from strategically located distribution centers located across the United States. This means faster delivery and lower shipping costs.
